OUT OF HOME DIGITAL ADVERTISING & WAYFINDING

VuePix Infiled is the market leader in Digital Signage Displays & Commercial Digital Technology.

We offer an extensive range of high quality LED displays, LCD kiosks, advanced software systems and customised digital visual solutions.

Purposely designed for retail & commercial applications, our state of the art, seamless digital displays are perfectly suited for installations in any location or application in prime viewing position of your customers or high density foot traffic, such as shopping malls, airports, corporate environments, traffic hubs, etc.
Our experienced team is constantly working to ensure each client receives the highest quality, most reliable, cost-effective and complete digital display systems to fit their vision.

VuePix Infiled enables you to customise digital display systems to your own specifications and requirements.

► Cutting edge technology

► Fully customised solutions

► Your choice of size, orientation & resolution

► Single or double-sided displays

► Purpose built for indoor or outdoor applications

► Bespoke mounting solutions or free standing displays

► Real time content management

► Custom exterior styling

Nextra Store, Queen Street, Brisbane

Wellington International Airport

KIOSKS &
SIGNAGE SYSTEMS

VuePix Infiled LCD displays offer a wide range of high resolution all in one digital signage solutions.

The sleek prefabricated enclosures are a perfect fit for any busy hubs where displaying high resolution information and crisp visuals is essential.

Our LCD displays offer exceptional versatility by incorporating screen sizes from 32" up to 85" with an ultra-high native resolution up to 4K.

All VuePix Infiled LCD units come standard with non-reflective glass, hard wearing, heat fused powder coated metal enclosures and in a wide range of colour finishes.

The displays are equipped with a light sensor that detects the ambient light to optimise screen brightness.

Built for 24/7 operation in areas exposed to impact from high density foot traffic, our LCD display systems provide exceptional reliability in an attractive form factor.
Thermally toughened glass protects the screens internal components and adds an extra layer of security against external elements. The advanced temperature management system regulates and protects the LCD screen within.

Each enclosure incorporates discrete hinged access for ease of service ensuring the most stringent uptime commitments can be achieved.

Camera systems can be fitted within the display for monitoring real time analytics.

VuePix Infiled LCD displays can be custom designed to suit almost any specific technical or aesthetic requirements.

► Display size 32" – 85"

► Ultra-high brightness

► Anti-reflective glass

► Built for 24/7 operation

► Single or double sided

► Freestanding, suspended or wall mounted

► Indoor or outdoor solutions

► Custom exterior styling

TOUCH SCREEN KIOSKS

SMART TOUCH SCREEN KIOSK

► Panel Size :32" - 86"

► Touch: IR touch /Capacitive touch

► Brightness: 450nits

► Resolution : 2160x3840

► Viewing angle: 178 °

► Contrast ratio : 4000:1

► Backlight life : 5000hours

► Color :16.7M

► Input Voltage: 100V-240V, 50/60HZ

Smart Multifunctional Touch Kiosk

Using a professional industrial LCD screen, the Touch Kiosk integrates computer, Internet, audio, multimedia technology and industrial plastic arts. In general, the video image is clearer, more natural and delicate and the visual impact is much stronger.

Sleek, Professional Design

Floor standing kiosks are gradually being used in all aspects of people's lives, study and work.
The standing touch screen has been widely used due to its high cost performance, customer design, and strong environmental adaptability.

Floor Standing LCD Touch Totem

The Touch Totem supports 24/7 functionality.
The life expectancy can reach more than 50000 hours.
Making this a particularly excellent product in terms of customer assistance, with uninterrupted service.
The touch screen can also be conveniently placed at any location.
