OUTDOOR DIGITAL MEDIA

⑤ LED PLATFORMS FOR HIGH-IMPACT DIGITAL COMMUNICATION

VuePix Infiled outdoor LED displays are engineered for permanent installations where visibility, reliability and long-term performance are essential. Built with robust IP-rated protection, efficient thermal management and lightweight structural design, they deliver exceptional image quality while withstanding harsh weather and demanding environmental conditions.

Intelligent automatic brightness control optimises image quality in changing ambient light. Ideal for DOOH advertising, retail precincts, transport infrastructure and public signage, VuePix Infiled outdoor displays deliver reliable, high-impact performance 24/7.

⑤ ENGINEERED FOR LONG-TERM PERFORMANCE

- High-brightness LED technology for outstanding daylight visibility
- Consistent image performance across changing environmental conditions
- IP-rated construction engineered for long-term outdoor reliability
- Intelligent automatic brightness control
- Advanced content management and system integration
- Patented real-time remote monitoring and diagnostics
- High operational reliability with low total cost of ownership
- Local technical support and tailored preventative maintenance programs
